Feature Highlights

Easy to Use with a Short Learning Curve.

A simple, intuitive interface, online video tutorials, and automated Design Wizards make Directory Pro very easy to learn and use, even for the novice!

Built-in Templates, Fonts, and Clip Art.

Directory Pro has a complete set of professionally-designed content, in a variety of styles, which ensures a beautiful result, regardless of the experience level of the designer!

The Right Set of Tools.

Basic photo editing tools like Crop, Red-Eye Removal, and Auto-Fix, plus fun Filters and Effects, custom Color and Border controls, and full Text editing allow for additional customization with minimal effort.

Design Wizards for Key Directory Pages.

Step-by-step Design Wizards, with a set of built-in layouts and easy-to-use customization features, simplify the layout process and ensure a great result for complex Portrait and Index Pages.

Included Online Storefront.

With Pixami's popular e-commerce Storefront software included, members can order and pay for their Directories through a secure, branded shopping cart. The Storefront also provides for Ad sales - a great way to raise funds, build community, and offset the cost of the Directory!

True Online Solution with No Downloads.

Directory Pro is 100% web-based, using the latest HTML5 technology. The software doesn't require any downloads or troublesome installations, and users can access it any time, from any location, and on just about any device!

Choose Printed or Digital Output.

With Directory Pro, the finished product can be delivered as a high-resolution, print-ready PDF, or as a full-featured digital Directory. Choose both to offer maximum flexibility to your customers and their members!
