CANVA to Yearbook Made Easy

Create Custom Size in Canva

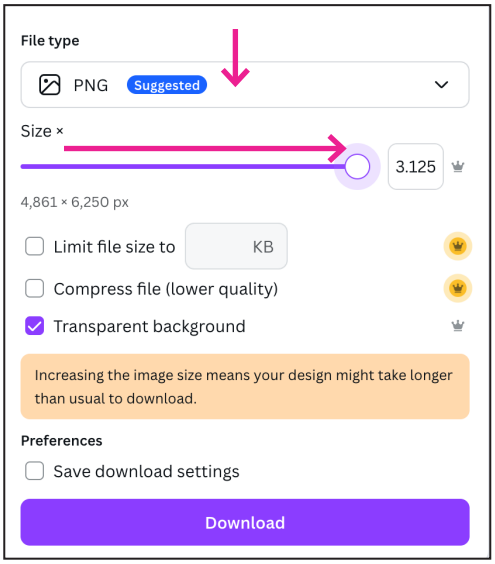

1. Launch Canva.
2. Select **+ Create a design.**
3. Choose **Custom Size.**
4. Enter the correct page size (in **inches** or **pixels**):
   Size 8 Books
   Page: **8.75" x 11.25"** (2625 x 3375 pixels)
   Size 9 Books
   Page: **9.25" x 12.25"** (2775 x 3675 pixels)
   Size A4 Books
   Page: **8.51" x 11.93"** (2553 x 3579 pixels)
6. Select **Create New Design.**
7. Keep **0.5"** margin on all 4 sides. Text and important elements should be kept **0.125"** inside the light gray safe area.

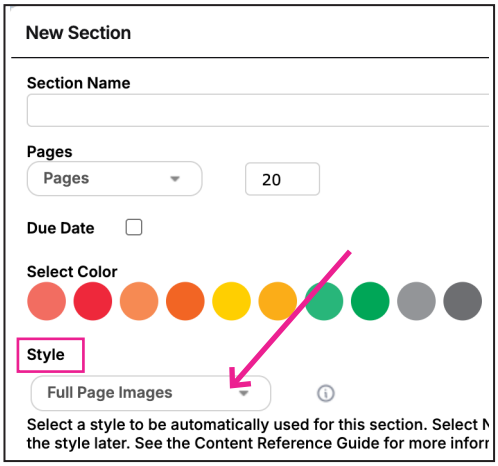

Export Design from Canva

1. Click **Share → Download**.
2. Choose your file type:
   PNG if your design has a transparent background.
   JPG for all other designs.
3. Drag the size slider to **maximize resolution**.
4. If using PNG, check **Transparent background**
5. Click **Download.**

Import into Yearbook Software

1. In **Manage Photos**, upload your Canva design files as **Candids**.
2. Create a **New Section** in the **Ladder.** Under **Style** select **Full Page Images.**
3. In the **Editor**, drag your Canva designs from the **Candids Tab** onto the page. Each design will automatically scale to fit the full page.

Notes

- Always design with bleed (the extra space beyond the trim line) to avoid white edges.
- Double-check margins before exporting from Canva.
